BARRICADE TAPE

Our **Better Barriers™ Barricade Tapes** are made in Canada from polyethylene (PE) resin to deliver performance with a focus on the environment. All above ground tapes contain the additive **Reverte™** which allows for degradation of the film in landfill conditions.

Custom Barricade Tapes are available to meet your particular requirements and to find out more details please contact your **Quest Sales Representative** or **Quest Customer Service**.

*Reverte™ initially catalyzes the oxodegradation of the polymer chains and then promotes the growth of microbial colonies to expedite the second biodegradation stage. Compliant with ASTM D6954-04.

VISUAL BARRIERS

- Available in both **Quality** and **Superior** grades of 3" x 1000' rolls.
- Packaged 12 rolls per carton (CT)
- or, at slight price increase, in a handy dispenser box (DB).
